**WASHTECH**<sup>®</sup>  
PROFESSIONAL WASH SYSTEMS

**High performance commercial dishwashers for durability, economy and ease of use. Gentle on the environment too!**

Four high performance Washtech models set new standards for dishwashing in the commercial and industrial sectors. Our P Series Passthrough systems incorporate the latest developments in industrial dishwasher technology, with robust stainless steel construction and easy-to-learn electromechanical controls.

You enjoy all the reliable operation and customer support you've come to expect from Washtech, plus new technical innovations to make life easier. An outstanding feature of the P series is the large clearance wash compartment.

The Washtech P Series is for professionals who demand the best dishwashing systems on the market today. The P Series is designed and manufactured by ISO9001-certified Washtech Ltd, Australasia's largest manufacturer of commercial glass and dishwashing systems.

### **M2** Market Leading High Performance Dishwasher

Full size lift-top model offers a taller (430mm) wash chamber for passthrough operation within a compact stainless steel framework, designed to fit inside a 595mm bench gap. Fast operation processes up to 55 racks per hour using international standard 500mm racks.

- Inline or corner operation easy with rack guide
- New stainless arms with removable end caps for cleaning
- Double filtration collects waste, which is easily removable
- Antidrip hood design channels excess water to drain
- L-shaped tank with curved corners
- 1, 2 or 3-minute cycles for varying soil levels
- Recirculates wash water at 350 litres/minute through upper & lower wash arms
- Only 3 litres per cycle water consumption: minimises water, discharge chemical & energy costs.

## PASSTHROUGH DISHWASHERS

### AL High Capacity, High Performance Dishwasher

The AL is Australasia's highest performance single-rack commercial dishwasher. The AL washes dishes, glasses & cutlery efficiently and quickly: up to 80 racks per hour using standard 500mm racks.

- New stainless arms with removable end caps for cleaning
- Three cycle options: 40, 60 or 90 seconds
- Recirculates wash water at 800 litres/minute through upper & lower wash arms for balanced wash action
- Double filtration collects waste, which is easily removable from scrap trays
- Two hp, 800 litre/minute wash pump
- Double filtration of wash water with scrap trays.

#### TALLER CLEARANCE

430mm door clearance on the P Series models easily takes large designer crockery.

#### M2/ME/AL RACK OPTIONS

500mm, 435mm & 400mm racks allow efficient use of internal space for items of varying size and shape. Select the rack to suit your crockery.

#### M1 RACK OPTIONS

435mm or 400mm.

### M1 Compact Dishwasher - up to 435mm rack

This unique compact passthrough dishwasher provides ergonomic flow in tight kitchen spaces, with reduced bending compared to undercounter machines. Only 510mm wide bench gap is required saving valuable floor space, suits economical 600mm bench depth for inline operation. A popular choice in resthomes and medium volume kitchen facilities.

- High-volume throughput: up to 28 racks per hour, using 435mm racks
- Low water consumption of 3 litres/per cycle saves energy & costs
- 370W pump recirculates wash water at 210 litres/minute through upper & lower wash arms for balanced wash action
- 2 minute cycle
- Adjustable rack guide suits 435mm, 400mm or smaller racks and bins.
- Suits 15Amp single phase supply.

features include double filtration internal cleaning so much easier. Waste collects where it is reach and remove. L-shaped on curved corners.

Engineered for long-term commercial use, P Series dishwashers have low maintenance and easy access with hinge out service panel.

**WASHTECH**  
PROFESSIONAL WASH SYSTEMS

P SERIES

**1. INCREASED WASH HEIGHT**

- With a full 430mm clearance, the P Series dishwashers provide more versatility in demanding commercial settings
- Contemporary crockery & unusual shapes are handled with ease

P SERIES

**2. LIGHTER HOOD LIFT**

- Full-length door springs allow fingertip lifting, tension 2 kg
- Handle & doorlink makes cantilevered door tension-free
- New pillarless design allows easier flow of racks

P SERIES

**3. FASTCLEAN**

- Anti-drip hood design channels water to drain
- External manifold gives easily cleanable surfaces
- Double filtration makes internal cleaning easier & quicker
- Removable rack slide

P SERIES

**4. EASYSERVICE**

- Smart design means ease of access for servicing on the hinged service panel
- Hinge-out service panel separates electrics from plumbing

P SERIES

**5. RACKTILT**

- Rack guide is transferable for straight through or corner operation to avoid jamming
- RackTilt allows height adjustments to be made to the inlet and outlet sides to align machine to fitted benching for easy flow of racks

ME/M2/AL

**6. DOUBLEFILTRATION**

- Waste collects where it is easier to reach and remove to help keep wash water clean
- L shaped tank stores the water below scrap trays to provide easy inspection, while curved corners ensure food scraps are easily removed

**TOTAL CUSTOMER SUPPORT**

**5-2-1 promise**  
3 years warranty on stainless cabinet (parts only)  
2 years warranty on wash pump (parts and labour)  
1 year parts and labour warranty

SERVICE & SUPPORT

**CATERENT**  
Rent - it's smarter business  
**FAST TRACK**

- 5 year warranty on wash bay (parts only)
