

About Us

E-Car Australasia Pty. Ltd is the Australasian distributor for E-Car by LVTONG, South East Asia's largest manufacturer of premium electric golf cars, people transporters and utility vehicles. Our distribution facility is based on the Gold Coast in Queensland, Australia and we have an expanding network of Dealers dedicated to servicing the key markets in Australia, New Zealand and the Pacific Islands.

Established as a joint venture between German and Chinese interests, E-Car by LVTONG is proud of the fact that it's carts are produced in one of only two purpose built, state of the art, electric vehicle plants in China. All vehicles are manufactured with a total focus on premium quality and feature industry leading U.S.A. and European brand electrical and mechanical components.

Regarded as the largest in terms of volume and number one in terms of quality, the entire company is dedicated to producing only electric vehicles with a current production capacity of 30,000 per annum and an expansion program underway to double this production over the next two years. The range of products is marketed in over thirty countries including the major markets of the United States of America, Europe, The Middle East and Australasia.

A large range of models is available to suite every application including speciality vehicles such as 6, 8 & 11 seat resort style people movers, housekeeping carts, catering carts, landscaping and cargo carriers, security vehicles and medi-carts.
